

CRESTVIEW MEDICAL CLINIC

Family Medicine and Specialist Care

With the elevation of the role of the Grace Hospital within our community, Crestview Medical Clinic is matching pace with an active and innovative expansion.

The Site:	The Support:	The Efficiency:
<p>We are excited to announce the opening of our second location in close proximity to our Portage and Sturgeon home base.</p> <p>Our new location at 2080 Ness Ave, occupies 5300 sq ft of cutting edge design which includes:</p> <ul style="list-style-type: none">● <i>In-house Pharmacy</i>● <i>Patient Education Room</i>● <i>Infusion Room</i>● <i>large Surgical Suite</i>● <i>Staff Lounge</i>● <i>Office space with 8 individual workstations</i>● <i>Dictation room</i>● <i>10 Examination rooms.</i> <p>We have an abundance of natural light, wide corridors and high ceilings. Our patients can access our facility from any of the 104 free parking spaces with 20 dedicated staff parking stalls.</p> <p>The environment we offer will be second to none in comfort for your work experience.</p>	<p>Through our association with WRHA's MyHeath Team, Crestview has the benefit of support services from Chronic Disease Clinicians, including a <i>Dietician</i>, an <i>Occupational Therapist, a Chronic Disease Manager</i> and a <i>Pharmacist</i>. We also have our own Pharmacist on site providing an active role in patient care. Our Office Manager is an RN with many years of acute care experience and 15 years in the role of Primary Care and Office Management. Our group will include support from Specialist Physicians to augment the clinic's capabilities. Our physicians provide a broad range of services and mentorship, including obstetrics and delivery, psychiatry, geriatric care, in-hospital acute care, palliative care, research involvement, and hold numerous certifications allowing for many services to be rendered within the clinic setting. We have an active educational focus and physicians with recent training to assist in maintaining the latest evidence-based approach to care provision.</p>	<p>In order to optimize patient flow and physician efficiency, our Medical Office Assistants will have a pre-visit preparation room where they can gather heights and weights, and perform</p> <ul style="list-style-type: none">● <i>EKG's</i>● <i>Spirometry</i>● <i>ABI's</i>● <i>automated blood pressures</i>● <i>urinalyses</i> <p>all prior to placing the patient in the examination rooms. This crucial step has enormous impact on workflow and physician efficiency. With our early adoption of QHR's Accuro software, we have the experience to leverage the EMR's vast capabilities. Our dedicated billing staff have a long-standing relationship with Manitoba Health and have very high success rates with claims submissions and reconciliation. As a member of our team, we are confident you will experience positive remuneration.</p>

If you are looking for a place to start or build your career, or looking for a place to provide a base while maintaining your outside interests, all within a setting of multidisciplinary support and flexibility of practice style and schedule, **Crestview Medical Clinic** has what you need.
